

THE BECKLEY FOUNDATION

Beckley Park, Oxford, OX3 9SY, United Kingdom

The Beckley Foundation is looking for participants in the following research

PSYCHEDELICS & CREATIVITY RESEARCH

Seeking **passionate 'Go' players** who would be interested in participating in a ground-breaking scientific research using LSD and the latest brain-imaging technology (fMRI and MEG) in order to investigate what are the changes in cerebral circulation and connectivity, and specifically whether there is a potential increase in creativity resulting from the use of a psychedelic compared with a placebo.

Anyone interested in this study, please contact us via e-mail and we can give you a more detailed description of the research.

All participants must fulfil the general requirements.
Please get in touch.

General requirements

- ✓ passionate about 'Go'
- ✓ good physical and mental health
- ✓ 18+ years old
- ✓ prior experience with a hallucinogenic drug without adverse event

Please reply to
