

AGA Developer Meeting - October 11, 2020

In Attendance:

Steve Colburn
Michael Hiiva
Anna Wiggins
Robert Qi
Lee Schumacher
Tien Baldwin

Agenda:

Updates:

RATINGS RATINGS RATINGS - Yes we're discussing it [Steve]

- Displayed ratings process
- Showed how to make sure no errors occur, how to back out tournaments
- Displayed common errors and gotchas

AGAGD: Chapter codes [Anna]

- Big changes to the AGAGD migrating away from chapter codes and into chapter names.
- Many discussions on chapters list about names vs codes and how theyre updates
- Discussions on order of the list on the player card: <https://github.com/usgo/agagd/pull/129>

Splitting servers [Michael]

- Scripts can be offloaded to a kubernetes cluster, what has to run all of the time vs scheduled?
- Really need to decide on a packager to go forward
- Discussion on kubernetes in different environments
- Thoughts on keeping forward on current plan and update code but include deployable code to make it easier

New Stuff:

New people

--Robert Qi, playing a while and have kids involved. Professionally hes a data management person for a management company. Daughter plays as well in NY. Three generations of go players.

--Tien Baldwin, Started playing and go playing. Helping to help where she can.

Ratings Meeting (see above)

TDList changes [Steve]

--Did some changes to the TD list to see changes in how it displays chapters. Tested to see if it could be imported into pairing programs.

Next Meeting is November 15th
